

Meteoroloji Genel Müdürü Coşkun ACCORD Olağanüstü Kurul Toplantısına Katıldı

Çevre, Şehircilik ve İklim Değişikliği Bakanlığı Meteoroloji Genel Müdürü Volkan Mutlu Coşkun, 9 Ekim 2025 tarihinde, Meteoroloji Genel Müdürlüğü'nün üyesi olduğu Konvektif Ölçekli Atmosfer Modellemesi Araştırma ve Geliştirme Konsorsiyumu'nun (ACCORD) Olağanüstü Kurul Toplantısına katıldı.

Toplantıda, ACCORD'un ikinci fazına geçiş süreci, bütçe senaryoları, Yeni Mutabakat Zaptı'nın son durumu ve bilimsel yayınlar kapsamında kodların lisanslanması konuları değerlendirildi.

The screenshot shows a video conference interface with a grid of participants. The main content is a presentation slide titled "3.b.1. Area Leader functions proposed decisions for the A/A". The slide lists three bullet points:

- To confirm that the selection panel can organize the interviews of the existing candidates as they go along, and make their proposal for the A/A of 1-2 December
 - (upper-air) physics, data assimilation, dynamics, surface, system.
- To prolongate until **10 Nov 2025** the DL for applications *only* for those Area Leader positions with no suitable application so far
 - coding evolution, EPS, meteorological quality assurance
- To mandate the Bureau to monitor the progress and analyze any difficulty in connexion with the AL positions

Note: for the sake of clarity, the organization of the interviews does not necessarily mean that a candidate will be selected for a function. There might still be empty functions after this round.

Claude Fischer, 3rd Extra. ACCORD Assembly, 9 Oct 2025
